### Education

#### CareerFoundry Bootcamp / Full Stack Web Development Course

June 2022 - March 2023 / Passed

Course focused on covering all fundamental bases of web development, aiming to teach and provide experience with common and desirable technologies. Front-end (especially React) was focused on, though time was spent on back-end architecture, mobile development, testing, and common industry methodologies like AGILE. Currently taking a follow-up specialization course on AWS & cloud computing.

#### Uppsala University / Qualifying Course in Swedish

January 2019 - January 2020 / Passed

Pair of courses taken to reach a level of baseline familiarity with the Swedish language.

#### University of St Andrews / Bachelor's Degree in Psychology

September 2014 - June 2018 / GPA ~3.6

Focused on evolutionary & social psychology. Final year dissertation involved studying and working with chimpanzees at Edinburgh zoo to gain insight into specifics of great ape vocal capabilities. Also learned statistics, data interpretation, and research methodology.

---

### Experience

#### The Bishops Arms / Bar Staff

July 2021 - July 2022, Uppsala, Sweden

A customer-facing role involving a variety of tasks. I was required to be fast and precise under pressure, change roles on the fly, and to present a friendly face.

#### University Job Experience

2016 - 2018, St Andrews, Scotland

Experience gained during this period includes Housekeeping, being a staff writer for a student newspaper, being an interviewer for a survey performed by *The Times*, and being a research assistant at the St Andrews Child & Baby Lab.
